

# More Power....Less Friction

## Advanced Synthetic Technology

**TerraCation**™  
**Lubrication**

### Applications

Transportation

Marine

Sport Vehicles

## ENGINE OIL ENERGIZER

TerraCation Engine Oil Energizer (EOE) is a superior eco-friendly, advanced synthetic technology used in internal combustion engines to reduce friction, heat and wear. By maintaining a polarized layer of oil molecules that bond to metal surfaces, you resist metal to metal contact. EOE is formulated for use in petroleum and synthetic lubricants.

- Non-Flammable, Non-Corrosive, Non-Toxic, Eco-Friendly
- Mono Molecular Adhesion Technology (MMA) - Polarized Layer of Oil Molecules Bonds to Metal and Resists metal-to-metal contact
- Superior Performance in Reducing Friction & Wear
- Enhances Fuel Economy
- Compatible with Petroleum or Synthetic Oils
- Eco-Friendly
