

# Superior Cutting Fluid Performance

## WATER SOLUBLE CUTTING FLUID-GP

With Mono Molecular Adhesion (MMA) Technology, TerraCation Water-Soluble Cutting Fluid is a major breakthrough in cutting fluid technology.

### APPLICATIONS—DILUTION RATIOS

- Drilling, Tapping, Boring, Reaming, Milling: (10:1 to 15:1)
- Turning, Sawing: (15:1 to 30:1)
- Grinding, Quenching, Stamping: (20:1 to 40:1)

### COST SAVINGS

- Longer tool life
- Reduced labor costs
- Less downtime
- Improved throughput

### USER FRIENDLY

- Bacteria and mold resistant
- Foaming resistant
- Easy filterability
- Instant emulsification

### QUALITY IMPROVEMENTS

- Increased speeds and feeds
- Improved surface finish
- Reduced welding & tearing
